What is Geriatric Case Management?

Geriatric Care Management is a service that assesses an individual's medical and social service needs and then coordinates assistance from service providers to enable disabled people to live with as much independence as possible.

What Services Does A-Z Senior Solutions Provide?

***A Comprehensive Geriatric Assessment** is conducted to identify the senior's physical, mental & social abilities to perform daily living activities such as dressing, bathing, meal preparation, medication management and more.

***A Comprehensive Care Plan** is documented for the family and physician that identifies problems and includes a step-by-step process to achieve identified goals.

***An Assessment of Appropriate Living Arrangements** is conducted to assess which type of living arrangement is appropriate and we arrange family tours with assisted living and independent living facilities that fit your needs.

We're here for you!

***Linkage With Social Networks & Support Services** such as local, State and Federal programs to meet the senior's needs.

***Coordination** with medical providers, hospitals, private duty care, insurance companies, home health, hospice and long term care insurance companies.
